BREWER'S CLASSIC

Viking Pilsner Zero Malt

Malt character

Viking Pilsner Zero Malt is made from 2-row null-LOX spring **barley**. As a special feature in null-LOX varieties is that Lipoxygenase activity is zero, affecting positively on flavor stability of beer. Steeping and germination conditions are chosen to promote even germination and homogenous modification. The final air-on temperature in kilning is typically 80–85°C. Pilsner malt flavor is very close to traditional pilsner malt and usually described as malty, slightly nutty and sweet. Great malt for all malt beers but there is enough activity and character for base malt use in many brewing applications.

Flavor contribution

Applications

For all kind of beers. Dosage rate up to 100%.

Malt specification

Moisture	%	max. 5.0
Extract fine	% dm	min. 80.0
Color	°EBC	3.0–4.3
Protein	% dm	max. 12.0

Sol. nitrogen	mg/100g	max. 775
Free amino nitrogen	mg/l	130–185
Beta-glucan	mg/l	max. 200
Friability	%	min. 80

Production and packaging

Pilsner Zero Malt is produced in Poland.

Available in bulk, containers, big bags and 25 kg pp bags.

Storage and safety

Malt should be stored in a clean, dry, odorless and pest-free place, at a cool (on avg. <25°C) and stable temperature. Under these conditions unopened bags of malt can be stored for a minimum of 2 years from the date of bagging and unopened bags of crushed malt for a minimum 1 year from the date of bagging.

Opened bags are beyond Viking Malt’s control, and we always recommend that opened bags are used at once. Anyhow, if opened bags are carefully re-sealed and then stored under the recommended conditions, they are expected to endure the storage times mentioned above.

You should always keep the malts away from hot surfaces.

Do not inhale the malt dust.
